

ROSÉ LEOS CUVÉE AUGUSTA 2024

Exceptional rosé wine / Organic

The balance, finesse and good aromatic persistence of this organic rosé, as well as its design combining lightness and elegance, is intended primarily for lovers of great rosés, for aperitifs and meals.

Character

The character of the LEOS «Cuvée Augusta» 2024 rosé comes from the fine dosage between Grenache, which gives good substance to the structure and the aromatics, Bourboulenc which brings fatness and Vermentino which gives liveliness and offers a beautiful fresh finish.

Tasting notes

Elegant colour of a clear pale-pink with shiny reflections. Very refined and fresh, the nose reveals a seductive aromatic bouquet dominated by aromas of peaches. The mouth opens with a lively attack with freshness that balances its generous character, a beautiful fattiness and a round and silky texture. The blend of Grenache, Rolle and Bourboulenc varieties offers a subtle balance between richness and delicacy, supported by a beautiful tension. A very harmonious wine.

Gastronomic pairings

LEOS rosé is a gastronomy rosé that can be drunk as an aperitif and during meals where the harmony between freshness and roundness goes perfectly with exceptional dishes. As a starter, you will appreciate the “Cuvée Augusta” 2024 with a tomato salad, a ceviche or a beef carpaccio for example. It is generally perfect with most Mediterranean dishes and more particularly with white meats and seafood. Advice for a rare experience: taste the LEOS rosé with goats cheese coated with wild thyme confit from the Domaine de LEOS. An explosion of flavours!

Producer

The LEOS “Cuvée Augusta” 2024 rosé was created by the teams of Domaine de LEOS (Patrick BRUEL) and those of Maison & Domaines Les Alexandrins (Nicolas JABOULET). Their common desire to seek excellence, their shared taste for a gastronomic rosé, their passion for the terroir and their strong commitment to a more virtuous economy brought them together and allowed them to pool their know-how to develop this exceptional organic rosé.
